## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 21 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Chee (US 6,641,553).

Chee discloses in column 12, line 35 – column 13, line 10 and column 14, lines 14-34 a method of vascularizing cardiac tissue comprising providing a flowable agent comprising a plurality of microspheres through a delivery instrument and imparting a particle moving force to cause the microparticles to pass through contiguous tissue to target tissue without any mechanical carrying means (abstract).

### *Response to Arguments*

Applicant's arguments, see Response, filed 8/27/2007, with respect to the priority date of the 2002/0183738 Chee et al publication is persuasive.
